Utilities/Buildings – After Configuration

District Number – doesn't seem to matter for Ed-Fi.

In some Ed-Fi states the District Number shows up in the summary as shown in previous slide.

Add District

		DistrictNumber	LeaId	DistrictName
Delete	Edit	0	590013000	Newman Grove Public Schools

Add Building

		Building#	DbBuilding#	SchoolId	BuildingName
Delete	Edit	1		590013001	Newman Grove High School
Delete	Edit	2	1	590013002	Newman Grove Elementary School

May need to add rows if there are more state reporting buildings than JMC database buildings

If DbBuilding# is blank then it is assumed same as Building#

NE Misc

Defining Day Names

- Best practices is to define day names for entire school year at the beginning of the school year
 - We used to advise schools that the preferred method is to do a month or a few weeks at a time, but that can cause problems for some states.
 - New preference for all states is to define them all up front and then use special days as needed.

NE Miscellaneous

Defining Day Names

- Watch for typos, especially in the year of the date
- Watch for unintended gaps in sequence, such as skipping a month

Day Number	Date	Day of Week
1	8/15/2018	Wednesday
2	8/16/2018	Thursday
3	8/17/2018	Friday
4	8/20/2019	Monday
5	8/21/2018	Tuesday
6	8/22/2018	Wednesday

An easy to miss typo, causes problems.

NE Miscellaneous

Special Days

In the event of a snow day or other school cancellation event, make sure to designate the days as such in Attendance – Day – Special Days.

Must be logged into a building.

Must edit the special day for each and every grade level affected.

NE Miscellaneous

Defining Day Names

- In some years there are excessive snow days, so tweaking the calendar in late winter may be necessary
 - Day Names
 - May need to insert days
 - Staff Development days that get recategorized as Student Contact Days
 - Spring Break, Easter Break, or holidays that get taken away and recategorized as Student Contact Days
 - MUST BE DONE SO AS NOT TO AFFECT ATTENDANCE FOR DATES THAT WILL “SLIDE”
 - May need to add days to the end of the day names

NE Miscellaneous

Defining Day Names

- If inserted or added new dates into Day Names, you should also review and possibly edit data on these pages as well
 - End of Year Day Number (Edit – Edit School data)
 - May now be pointing a day that is no longer the last school day
 - Special Days
 - Special days you may have entered may now be associated with the wrong day, if some dates “slide” to new day number
 - If so, may need to remove special days info from one day and put it to the date that “slid” down the page
 - Term Dates
 - Example: school may slide end of Q3 and start/end dates for Q4.
 - Other term dates could be affected in similar way:
 - Year End Date
 - Sem 2 End Date
 - Trimester 2 End Date, Trimester 3 Start/End Dates

Edit – Edit School Data

- Make sure to define end of year day number
 - should be defined in day names
- Don't just pick day 173 if it is not defined as that will error out during some Ed-Fi submissions.

Define for terms in use in schedules.

Make sure dates are for current year (typos).

Some schools will not be using some terms, like trimesters, so don't need to define term dates for these.
